DONATIONS & CIVIC BENEVOLENCE FUNDS

<https://www.gofundme.com/c/act/wildfire-relief/washington>

"GoFundMe has made the process easier for people who are wanting to donate to the victims of the Gray and Oregon Road fires in eastern Washington.

They have created a centralized hub that houses all of the verified fundraisers that are related to the fires spreading in Washington.

The GoFundMe community is coming together to help people who are raising money to provide immediate and long-term assistance to those affected by these fires.

Here is how to help:

Donate to a verified fundraiser through the "Washington Wildfire: How to Help" centralized hub

*Spread the link through social media channels to encourage others to donate or share as well.

*Donate to the GoFundMe 2023 Wildfire Relief Fund

This goes directly to people who are seeking help through their own personal GoFundMe fundraisers and to nonprofit organizations providing relief.

NAME AND CONTACT FOR CONTRACTOR THAT YOU ARE CONTRACTING WITH:

Are the repairs being done in accordance with building codes, make sure all work requiring city and county inspection is official approved on writing before making final payment to the contractors. you can be on sight with building inspectors and contractor.

5) Avoid paying part up front (especially anything above 20%), then pay periodically as progress is made. Never have the contractor pay for materials upfront, go with contractor to buy the materials.

6) at the end of build, have the contractor sign a 'release of lien', one work and payment is complete, then this prevents the contractor making lien against your property if conflict were to arise. Don't make final payment until the job is finished and you are satisfied. Don't sign over an insurance settlement check to the contractor

Rotary Disaster Teams

district's disaster response chair Dan Crawford (CDA Rotary) <https://www.rotaryspokane.com/bulletin/View/a6056796-d65a-4530-87cc-168650126acc>
If you want to donate money to help the Disaster Clean Up, Rotary District 5080 has set up a fund where 100% of the money will go to help Idaho, Washington and Canada.

Below are the details we have so far:

Dan Crawford – Rotary Club Disaster Relief Chair

My Background: I am a Rotarian in the Coeur d' Alene club and disaster response chair for the district. Since hurricane Harvey in 2017 I have been deployed seven times with Disaster Aid USA a Rotary affiliate based out of Maryland to various hurricanes and floods. As a lead DART I am responsible for assessment, volunteer coordination, logistics and numerous other duties.

My Role in Medical Lake:

Access the situation and the immediate needs of the community by coordinating with NGOs in the area.

Establish a base of operations.
Establish a volunteer network with area Rotary Clubs and other community service organizations and churches.

Assign volunteers to roles based on skill level and physical capabilities.

The Plan:

Meet with Summer at the Red Cross office in Spokane Monday to discuss

next steps for evacuees going back to their homes. - Complete

Meet with volunteers from the Post Falls Rotary Club on Wednesday to go over volunteer duties. If any Spokane volunteers could be at that meeting that would be great. - Complete

Travel to Medical Lake to establish base of operations at Redemption Church.

Travel the neighborhoods with my contact to establish a grid of homes that we will be working on

Devise a grid plan of homes and assign volunteers to the homes in the grid.

Get feedback from the homeowners on other needs.

Clean up and Recovery:

The primary focus will be clean up and recovery. Volunteers on the various home sites will be clearing debris and trying to sort through the ash and rubble to find valuables. This will include furniture, appliances, and anything else the needs to be hauled to the curb for other crews to dispose of. Usually this is a FEMA responsibility. They contract with people to remove debris from the street, but it is the responsibility of the homeowner to get it to the curb. We will try and get a good idea of what the homeowners may want recovered. Often things have meaning to them that others may perceive as trash. This is a very emotional time, so volunteers need to be sensitive to that.

We will also need volunteers that aren't physically able to sign up volunteers, hand out water and food and other non-physical activities.

This community is amazing, I say it again and again. Now is our chance to help our small town neighbors. Every little bit helps.

Farm Service Agency 323-3000

UNITED STATES DEPARTMENT OF AGRICULTURE
www.fsa.usda.gov

WA STATE disaster.fsa.usda.gov
11707 E Sprague, 99206

Offers programs for farmers related to conservation, disaster assistance, price support, farm loans, energy programs. The Farm Service Agency (FSA) has emergency assistance programs to provide financial help when disasters strike. Timely reporting of damage and loss is essential for program participation. Additionally, some of those programs require a disaster designation to trigger eligibility. Agricultural producers can play a vital role in the disaster designation process. Please report crop and livestock losses and damage to agricultural land or structures to your Farm Service Agency at the County Level

SPOKANE COUNTY - 99212 **924-7350 x 2**
8815 E Mission, Ste B, Spokane Valley
FSA offers several assistance programs to qualified agricultural producers who have losses due to wildfire:

*Emergency Assistance to Livestock, Honeybees and Farm Raised Fish (ELAP). This program covers additional feed purchases, water hauling, and additional grazing. This is for replacement items. It also allows for the assistance to go both directions. Take the feed and water to the animal or take the animal to new feed and water locations.

*Livestock Forage Program (LFP). This program covers grazing losses. This is for immediate items. This program does not need to be a part of the disaster, wildfire or any declaration.

*Livestock Indemnity Program (LIP). This program covers livestock losses in excess of normal mortality. This program does not need to be a part of the disaster, wildfire or any declaration. Items available but require national approval for funding:

*Emergency Conservation Program (ECP). This covers items such as lost fencing.

*Emergency Haying and Grazing of CRP. This would be allowed once the county reaches a D2 drought designation, or if the county has at least a 40% loss in forage production from a qualifying event, such as wildfire.
